Claims 1-3, 5-10, 18 and 19 are allowable over the prior art of record because the prior art of record does not teach or fairly suggest the entire combination of elements set forth including a plurality of braking elements slidably located within a base, a selector and a contacting structure axially stationary with respect to the braking assembly.

Claims 11-17 are allowable over the prior art of record because the prior art of record does not teach the entire combination of method steps including setting a selector to restrict a desired braking elements from radial movement within a base of a braking assembly.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
